Held for Burglary.—Tom O'Neill, who stated that his true name is George Lowell, was given a preliminary hearing in the municipal court this morning on the charge of burglary and was bound over to await the action of the district court, the bond being fixed at \$500. The complaint alleged that Lowell, on the night of October 4, entered a rooming house on Lincoln avenue, between Twenty-fourth and Twenty-fifth streets, with the intention then and there to steal from the occupants of the place. F. Ono, the Japanese proprietor of the boarding house, identified Lowell as the man who burglarized his place.

THE BREWER "INNER CIRCLE" ARE CAUGHT IN THEIR OWN TRAP

Try to Throw the Responsibility of Their Misdeeds on the Woman and Now Want to Divide Their Crooked Work With Republican Councilmen—"Turn the Rascals Out."

What did the Brewer ring, the "inner circle," say in reply to the charges of rottenness in city affairs? Did they disprove the charges? No, they simply said that there are five Republicans in the council and that the city auditor and city treasurer are also Republicans and that they are part of Brewer's city government. What an indirect confession!

They say that Mr. Glasman "charges the city auditor with making false reports." Mr. Glasman has done nothing of the kind. Mr. Glasman, in his speech, congratulated the city auditor for having made a true report in spite of the "inner circle" of the Brewer ring. It is true some of the present city officials are Republicans, but they do not have the management of city affairs. What has Thomas B. Farr, city treasurer, to do with spending the city's money? Nothing. The law says he shall safely keep the funds and pay the money out on an order of the mayor and city council countersigned by the recorder and auditor. That Mr. Farr has done. What did he have to do with the crooked water report? Nothing.

What are the duties of the auditor? Does she appropriate the money? No. The mayor and city council do that. Did the auditor make that water report? No. The mayor and Democratic members of the city council claimed that exclusive honor. Now they are willing to divide it with the Republicans. No, thank heaven, the Republican city officials had nothing to do with it.

The Brewer "inner circle," consisting of Brewer and the Democratic councilmen, run the waterworks. The Brewer gang would only allow one Republican on the water committee—and did that only for appearance sake—and reserved the other five places for themselves, and now they say, "Bill Glasman attacks the Republicans."

As a matter of fact, Mr. Glasman does not care who gets bit for doing rotten city work. But in this instance, Mayor Brewer and his "inner circle" are the guilty ones. The crooked water report was approved by Mayor Brewer and signed by the following Democratic councilmen: H. E. Peery, Sam Browning, C. J. Humphris, Chris Flygare and Sam Thomas.

And dear reader, those men are the hub of Brewer's "inner circle." They and they alone are charged by William Glasman as being responsible for the water report. The Breweries in their paid advertisement in the Morning Examiner say that "Florence Stanford, city auditor, kept the waterworks books." Shame on you Breweries, to hide behind a woman's skirt. But it is not true, Mrs. Stanford did not keep the waterworks books which showed over \$300 in cash on hand. The books Mrs. Stanford keeps show that the waterworks is \$230.66 short in cash. Why lie about that. Give a lone, defenseless woman at least a fair chance.

Read this attack from the Brewer paid advertisement in the Morning Examiner. Here it is: "Who kept the books and who made the report? Florence O'Neill Stanford, a Republican officer running on the same ticket with Bill. Think of the moral perversity of a man who would thus attack an innocent and defenseless girl so unfortunate as to be on the same ticket to accomplish his low, contemptible purposes."

The above from the Examiner mudslinging, paid for by the Breweries, shows that all Mr. Glasman said in his speech is true. The Breweries are trying to gain sympathy by stating that Glasman attacked a woman. Now read this and see what Mr. Glasman said in his speech about Mrs. Florence Stanford:

"Let me here congratulate our city auditor for having the nerve to make this second report and to file it in her office in spite of Mayor Brewer and his 'inner circle.' You might think this bunch would have overawed her, but they did not."

No, indeed. It congratulates her for having made a report of her own that shows the water report was not true. Mrs. Stanford's report shows the waterworks is in debt \$230.66, while the water committee report shows \$394.34 cash on hand. Mr. Glasman denounced the latter report, not the one made by Mrs. Stanford.

Shame on you Brewer people, to thus attempt to turn your misdeed on to a defenseless woman who has no husband to defend her, and whose oldest child is only 9 years old. Shame on you Breweries, to even to permit such a cowardly act. That act alone ought to lose you every woman's vote.

Voters, what do you think of the Brewer bunch by this time? How will other departments of the city government show up if an expert looks them over, if the waterworks report shows such crooked work as was shown at the Weber state auditorium Wednesday? Just read the speech again and be convinced.

Ogden men and women, up and at them. "Turn the rascals out."

AMERICANS LOST IN PHILIPPINES

Manila, Oct. 22.—Incomplete reports show that twelve persons were drowned during the recent floods in Northern Luzon. The destruction of property was heavy. The floods in the vicinity of Dagupan continue, the streets of the place being flooded as late as yesterday by five feet of water.

Washington, Oct. 22.—Six lives, some of them Americans, are known to have been lost and probably many other people perished in the recent typhoon which swept across the northern part of the island of Luzon in the Philippines, according to a telegram from Governor Forbes, received at the bureau of insular affairs today.

The typhoon crossed close to Baguio, the capital of the province of Benguet, and the rainfall which accompanied it caused the sharpest rise in the Bued river ever known, inflicting great damage to the roads of the province.

MURDER OF FAMILY WAS WELL ACQUAINTED

Kansas City, Mo., Oct. 22.—A coroner's inquest over the bodies of Alonzo Van Royen, his wife and her sister, Miss Rosa McMahon, who were murdered on their farm, five miles west of Kansas City, Kansas, Wednesday last, was begun today. No arrests have been made.

The county authorities today are working on a new theory which arises from the fact that the Van Royen homestead showed no evidences of a hurried search by the murderer, though robbery is known to have been committed.

"The murderer was some one familiar with the premises and some one acquainted with the family and not a tramp," said Prosecuting Attorney Jos. Taggart today.

From the nature of the wounds, the murderer must have fired several shots into each body after it lay on the ground. This indicates to my mind that he was some one who feared he would be recognized and desired to be sure all were dead."

BANK OF ENGLAND WARNS WALL STREET

London, Oct. 12.—The financial writers in the London morning newspapers for the most part consider the Bank of England's action in raising the discount rate as a warning to Wall Street speculators. The Standard questions whether a five per cent rate will suffice.

The Chronicle says: "Present conditions are strikingly similar to those which led to the financial panic in America in 1907. The fact that American operations on a huge scale are again being carried on in London makes it imperative to check the possibility of America dragging away our gold."

The Financial Times says: "If Wall street disregards the plain danger signal, further coercive measures must be tried."

After being taken to police headquarters, where he is being held, Cooper, with no show of excitement met and talked to his wife, who visited him.

The resolutions also recommended that the state banking board as it now exists be abolished and that a guarantee fund be re-deposited with banks from which it originated and no interest be paid by banks while deposited with them.
